AVerVision SPB370

Platform Visual Presenter

folded view

Product Description

The AVerVision SPB370 is a full-feature, high quality platform visualizer, designed to include high-end features in a comprehensive visual solution. Featuring High Definition 1080p Output Resolution, users are able to take advantage of the clarity of HD monitors and projectors 20X AVerOptical Zoom combines of 8X Optical Zoom with 2.5X AVERZOOM, providing 20X Optical Zoom quality while maintaining the ability to pan. Included 8X digital zoom offers a total zoom magnification of 160X. The IP Network Addressable capability of the AVerVision SPB370 enables users to connect and view live visualizer presentations from virtually any location where Internet access is available. Included software provides the ability to annotate, capture images, record video with audio, and control the features and functions of the visualizer. Images can be captured to the document camera itself, an SD card, USB flash drive, or directly to a PC or MAC. The built-in full-size lightbox allows for the display of x-rays, slides, negatives, transparencies, and more, while the dual VGA input allows for multiple devises to be connected, then output to a single projector source. The AVerVision SPB370 is a complete visualizer solution perfect for the classroom, courtroom, boardroom, and more!

HD ready 1080p output resolution

able to output High Definition 1080p resolution, images are crystal clear and sharp, especially when projecting through an HD projector or monitor
